Black African Caribbean - 27 (9%)	
Gypsy Roma - 2 (1%)	
Mixed Parentage Other - 14 (5%)	
Mixed Parentage White/Asian - 11 (4%)	
Mixed parentage White/Black African - 1 (1%)	
Mixed parentage White/Black Caribbean - 15 (5%)	
Other - 7 (2%)	
Information not yet obtained - 16 (6%)	

NB: It must be noted that there are robust systems in place to accurately record and report on the numbers of “significant” and “serious” risk children as they currently receive a statutory response. Those young people identified as “at risk” may not require a statutory response and may be receiving appropriate alternative support services in accordance with their level of need.

Work is on-going to develop recording and reporting capability for this cohort therefore whilst the numbers give an important and relevant insight into the impact of awareness raising activity and scale; direct comparisons between Local Authorities are unlikely to be accurate. Whilst any child may be a victim of CSE there may also be any number of other demographic variables that impact on the slight variation in prevalence in any one Local Authority area.

Rate of 11 - 17 year olds per 10,000

Coventry**236 young people at risk****Breakdown**

185 - Female (78%)

51 - Male (22%)

Age Range 11 - 18
