Mixed Parentage Other - 14 (5%)	
Mixed Parentage White/Asian - 10 (4%)	
Mixed parentage White/Black African - 1 (0.4%)	
Mixed parentage White/Black Caribbean - 18 (6%)	
Other - 8 (3%)	
Information not yet obtained - 15 (5.4%)	

NB: It must be noted that there are robust systems in place to accurately record and report on the numbers of “significant” and “serious” risk children as they currently receive a statutory response. Those young people identified as “at risk” may not require a statutory response and may be receiving appropriate alternative support services in accordance with their level of need.

Work is on-going to develop recording and reporting capability for this cohort therefore whilst the numbers give an important and relevant insight into the impact of awareness raising activity and scale; direct comparisons between Local Authorities are unlikely to be accurate. Whilst any child may be a victim of CSE there may also be any number of other demographic variables that impact on the slight variation in prevalence in any one Local Authority area.

Number per 10,000 of population

**Coventry****218 young people at risk****Breakdown**

170 - Female (78%)

48 - Male (22%)

Age Range 10 - 18

**Risk Level**

5 - Serious Risk (2%)

47 - Significant Risk (22%)
